**Producer
Receives USDA
Certified
Packaged Meat**

The Montana Premium Processing Cooperative will own a total livestock processing plant designed for hoof-to-plate concepts - USDA certified.

Montana producers can control their own destiny by retaining total value of the livestock they produce - no more market manipulating middle-man.

Total processing capacity will be 4000 animals annually. Operations will initially focus on beef but can also process hogs, sheep, and bison.

- » A service fee based facility designed to allow in-state processing of Montana rancher's livestock
- » USDA certification allows sales to neighbors, across state lines, and globally so our ranchers can maximize the value of their livestock
- » Collegiate program with hands-on training for students to increase the state's processing workforce
- » Optional "Certified Organic Slaughter" by request
- » CONSUMER VALUE: Reliable, affordable, safe, local

Tentative Service Fees (Beef)

- **Kill Fee: \$100**
- **Cut and Wrap: \$.85/lb**

* Fees set by membership through cooperative ownership. Fees will be competitive with similar USDA certified market rates.

Community and State-wide Benefits

This facility will be a job creator. By year 3, the facility will provide SEVEN full time competitively paid full time positions providing over \$680,000 in local salaries.

MSU Northern collaboration for new Associate and Bachelor level degree programs in Meat Sciences. This facility plants to operate as a training site to help rebuild Montana's skilled labor in the meat processing services.

The cooperative has filed the Intent to Incorporate Bylaws and Articles of Incorporation. Additional information can be found at www.mtpremiumprocessing.com and follow the MFU website/facebook pages to stay current on the cooperative.
